Osmolarity is the accepted standard for diagnosing Dry Eye Disease. The Osmolarity Test will give your doctor a meaningful measurement of the health and stability of your tear film. Vision Source of East Broward is a certified Tear Test Laboratory and results of your test are immediate.

COMPUTER EYE STRAIN

If you work at a computer, there's a good chance you experience computer eye strain. Eye strain and associated symptoms from prolonged computer work such as blurred vision, headaches and muscle strain are called Computer Vision Syndrome.

We offer progressive lenses specifically designed to allow you to work at your computer in comfort.

KERATOCONUS

In an eye with keratoconus, the cornea thins and bulges out into an irregular cone shape. The light coming through is distorted and the lens cannot focus properly and is affected. Our doctors specialize in the evaluation and fitting of specialty contact lenses that enable the keratoconus patient to enjoy life.
